

Risks of the collaboration

Total risk level of the project

2

Risk-level is elevated. Pay attention to individual risks and their management. Undertake a more detailed risk assessment, if necessary.

In addition to the individual risk items below, the overall risk score is affected by information you have provided for the role University of Helsinki plays in the collaboration, the duration of the collaboration, the availability of an agreement and previous experiences with this partner.

Risk level of the partner country

2

*Total risk level of the selected country is elevated
Your partner is in the global south. In this type of collaboration, you should be aware of the ethical guidelines, specifically developed by the UniPID network and Finnish National Board on Research Integrity:
<https://www.unipid.fi/for-society/responsible-global-academic-partnerships/complementary-ethical-guidelines-for-global-south-academic-partnerships/>*

Corruption

2

Your collaboration partner is located in a country, where the risk of corruption is elevated. Take this into account in planning and implementing your collaboration.

Safety level

1

Travelling to this country is not restricted. Feel free to find additional information from the Ministry of Foreign Affairs travel advisory, in Finnish only. University's travel safety instructions are available at <https://flamma.helsinki.fi/en/group/matkustaminen/matkustusturvallisuus>

Academic freedom

2

Your collaboration partner is located in a country, where academic freedom is somewhat restricted. Take this into account in implementation.

Political stability

3

Your collaboration partner is located in a politically unstable country.

Human development

2

Your partner is located in a less-developed country, which might affect planning and implementing the collaboration.

GDPR

3

Handing over personal data requires GDPR compliance. Please review instructions at Flamma.

Sanctions

1

There are no sanctions

Risk level of the partner university

1

Partner university is listed in the World Higher Education database.

1

Risk level of the dual use

Based on your response, this collaboration does not pose Dual Use risks. If there is any doubt, please review the instructions at Flamma.

Economic risk level

2

The financial scope of the collaboration is moderate, and the related risk level is elevated

Ethical risk level

2

You are not sure if the collaboration includes ethical risks.

Summary of your choices

Name of the person providing information

Testi Kayttaja

Faculty of the person providing information

Faculty of Science

UH unit responsible for collaboration

xd

Name of the collaboration/project

xd
